HONGKONG, TUESDAY, SEPTEMBER 7, 1897. GREAT ignorance appears to exist as to the terms upon which subordinate officers in the Police Force hold their positions here in Hongkong. Much has been said and written about a public trial which ought to have been given to the men who have been

lately dismissed from the Force. When Naval or Military man (officer or other) is charged with an offence, he can ask for a Court-martial. That is in accordance with the terms of his agreement. Any subordinate officer or constable in the Police Force is perfectly cognisant of the fact that he serves under the terms of Ordinance 14 of 1887, and the regulations appended thereto, or framed since that date. Section Goods per Maria Valerie undelivered after | 24 of that Ordinance reads :- The Governor shall have power upon the representation of the Captain Superintendent to dis miss any subordinate officer or constable 3 p.m. -Auction of Crown Land at Hung for misconduct or neglect of duty, or to approve of the reduction of any sergeant

or constable to a lower grade or class in the force.' All offices, it may be remarked, below the rank of Captain Superintendent and Deputy Superintendent are 'subordinate officers.' It will be seen, therefore, that the power of the Governor is clearly enough set forth; and it seems to us useless to argue in favour of any departure from the procedure here laid down. An agreement is an agreement, and it is unreasonable to from Manila June 24. complain when the terms of that agreement are complied with. The Captain Superintendent of Police could, apparently, have entisfied himself in the recent cases without the assistance of the Crown Solicitor. When he made his representation to the Governor, His Excellency had no difficulty in coming to a conclusion. We are in the fullest sympathy with the utmost publicity in matters where publicity can fairly be demanded. But when men belonging to a Government Department are judged by the rules of that Department-rules noon, on Tuesday, Sept. 7th. The P. M. Co.'s s. s. We consider that Captain May has per-

formed a painful duty in a strictly proper

manner in the recent cases, and that the

Governor has rightly supported his Chief

A Tokyo telegram dated August 27 states that there have been constant arrivals of Japanese silver yen at Yokohama since the beginning of the month. The amount imported up to the 20th Aug. reached about 2,450,000 yen. It was expected that the amount will reach four million yen by the end of the month.

The appellants were represented by Mr E. Robinson (instructed by Mr H. L. Dennys) and Mr J. J. Francis (instructed by Mr G. C. C. Master) appeared for the respondents. The proceedings were commenced. on June 28, and the appeal was on questions of fact and law on the judgment of of FLOWER AND VEGETABLE SEEDS, the Court below. The compradore was responsible for certain liabilities he incurred on behalf of the Bank. Both judges dismissed the appeal, and grapted costs to the respondents.

DISTRIBUTION OF PRIZES. Yesterday afternoon, the distribution of prizes gained at the Aquatic Sports on Friday and Saturday took place in the Club Gymnasium, which had been decorated for the occasion. There was a large attendance of members.

Commander W. C. H. Hastings, in calling upon Mr A. P. MacEwen to present the prizes, said Mr MacEwen was one of the oldest members of the Club, and his name tigured on one of the boards of prize- the river became covered with boats of winners. He would not say how many years ago that was, as Mr MacEwen would not like to have it in print, but there were giants in those days and Mr MacEwen was one of them. I think the introduction military teams in the water polo competition was a great success, and the play in the tie between the Club premier team and the members of the West Yorkshire Regiment was one of the keenest fights I have seen, and I have heard several expressed wishes in the colony that it would give pleasure if another match could be arranged. I am extremely serry that Mr Stopshi, who has won acveral prizes I believe in the past, was unable to compete owing to indisposition, but I trust we shall see him in our sports on the next occasion. #### WENCHOW.

The Festival of Lights held to appease the King of the Water, a kind of Neptune, was kept here a few evenings ago. There seems to be no fixed date for this pretty little fete, which takes place in different provinces just when the inhabitants please.

For two days and two nigitle we heard the monotonous music, which is the recornised accompaniment to Chinese theatricals going on unceasingly, and very tired we got of it. Each evening at nine o'clock every size and description, and suddenly these all burst forth in a blaze of little scintillating lights. Every boat-however small-seemed to have at least one coloured paper lantern, and the bigger ones had a magnificent cup for the championship of long strings of them arranged in various ways, more or tless fantastic according to the amount of originality possessed by the owner. From time to time flaming flambeaux were fastened to the bows of some particularly well decorated boats, and these enhanced the brilliance of the scene. the distance, too, outside the walls of the city, various theatrical egapanies were giving performances on brightly illuminated platforms, surrounded by crowds of natives in gala costumes. No doubt they would all have presented anything but a charming appearance close at hand; from afar, however, they formed a picture squabackground to an already very attractive spectacle.

After a short pause, at a given signal from the largest junk, numbers and numbers of little lights were lowered over the sides of the boats and floated down towards the mouth of the river. Very soon there was a long string of many hundreds of they looked. These are just tiny lighted wicks floating in oil, and placed inside an oiled paper receptacle made in the shape of a lotus leaf. Each light floated out to sca is supposed to do good to some drownthe better for the spirit. It is considered a very good omen if the light burns brightly up to the mouth of the river, and a very bad one if the paper lotus leaf catches fire, benefit that particular light was floated out, will have to endure unutterable misery

But surprisingly few did catch fire, only just here and there one might be seen brightly flaring up.

In some places the people burn lights of many different colours for the good of other provinces besides their own. The Wênchowites must be somewhat selfishly inclined, for their lights were mostly yellow, with occasionally a dark red one to be seen, so evidently they thought primarily of themselves, and the interests of one

other province were represented in a decidodly meagre way. About midnight a large fire was made the East Gate of Wênchow City, and into at purses of paper money were cast, also coloured paper clothes, boots and shoes, dats, boxes, furniture, and numberless articles required by people setting up house. These were all for the good of the poor wandering spirits of drowned men and women. When this great pile was length reduced to ashes the growds of Chi nese spectators thought of wending their steps homewards, and the sound of traffic, and the beating of gongs gradually died away, the tiny barks and big sea-going junks ceased to illuminate the calm river. but the stars still continued to twinkle the dark blue sky. Thus, quiet crept over the scene, lately so bright and lively, and everyone thought of bed and sleep.

#### DECLINE OF JAPANESE TRADE WITH CHINA.

Since March last the free coinage of silver has been suspended as a proliminary to the operation of the gold standard, and the value of silver you has gradually risen. The result has been a considerable rise in the rate of exchange at Shanghai and that it has brought about a decline upon China trade. This is what we previously mentioned and has now been realized Indeed, the realization is far greater than expectations. The export of cotton yarn is now found to be unprofitable and he Japanese yarn which has become able to compete with the Bolmbay varn is about to be driven out of the Shanghai market altogether. Matches also are no longer found profitable to export and the Guild in Hiogo have now decided to suspend expor ing them from September lat. Probably all the other articles of export would have met with the same fate. And the appreciation of gold and the depreciation of silver should further continue all possibilities of re-commencing the export trade with the Middle Kingdom will be lost in the future The worst sufferers by the collapse of Chin trade will be the dealers in marine products. The loss and inconvenience they sustain at this moment are much more greater than they did when Japan was at war with China

in 1894 and 1895.—Chungai Shojyo.

A BRAVE ACT. Another instance of the degeneracy of the young man of the present day for those Sho would have us believe that he is not as good a man as the 'old beys,' laudatores temporis acti brigade, is told by an Indian comtomporary :-

It has just leaked out that Lieutenant H. S. de Brett, of No. 6 Bombay Mountain Battery, who was the young officer who took out two companies of infantry with ammunition for the relief of the Maizar escort on the 10th June, performed a brave deed, which will probably be considered unique in the annals o his distinguished regiment. When reached the column he found only one serviceable gun and no sponges. enamy were closely pressing our men. personally loaded the first three or four rounds, ramming the charges home with a sepoy's Martini-Henri rifle. There was no means of sponging out between the rounds Lieutenant de Brett would not allow any of his men to perform this duty. All gunners will understand the imminent peril incurred by this galiant young officer in thus loading and ramming home a muzzleloading gun. Ultimately the difficulty and danger of not sponging out was got over by using a sowar's lance with a puggree wrapped round it.

The gallantry of this deed it is reported was only equalled by the modesty of the performer, who until questioned said nothing about it. -Times of Ceylon.

In the Contemporary Review for August, in an article entitled 'Twenty-Years of Trade,' Mr Mullhall gives us some striking deductions from trade statistics. The trade of the whole British Empire is 37 per cent. of that of the world. It was 36 per cent. twenty years ago. The volume of trade has, in the twenty years, risen four times as fast as the population. Our industries foreign countries. In twenty years the world's trade has increased 21 per cent. but the British Empire trade has increased 23 per cent., Germany's has only increased 16 per cent. The highest ratio of progress has been that of the United States. which has increased its trade 35 per cent.

In the Japan Herald of the 25th of August we find more details of the arrest at Hakodate of several Chinese belonging to a British man-of-war. It appears that eight Chinese cocks in the service of a British man-of-war, and four Chinese residents in Hakodate, were found cambling in an inn by the police, and were arrested and sent to the Hakodate Chiho Saibansho after examination by the police. The British Consul demanded their release, on the payment of a fine, to which the Procurators' Bureau would not agree. Correspondence is now being carried on in connection with the matter. The British Minister in Tokio has addressed the Foreign Office pointing out that of the Chinese now detained in the Hakodate Chiha Salbansho, several are the crew of a British man-of-war and are therefore under British jurisdiction. The Japanese Government has no right to punish them in any way, and the present act of the authorities is regarded as highly improper. To this communication the Foreign Office has replied that the offence in question was committed on land, and that the crew of a British man-of-war may be punished for offences committed outside the man-of-war when such members of the orew are not registered as British aubjects.

> A STORY OF THE CZAR OF RUSSIA.

The Hamburgische Correspondent, which s usually well informed on Russian affairs, reprints an extraordinary story from a Creatian paper.

According to this authority, the Progress

sive policy of the Czar Nicholas has almost led to a Palace revolution, in which tho highest Court circles were involved. In the beginning of May, the Empress Dowager, following the advice of certain reacthe consequences of the injury he received in Japan at the hands of a fanatic. As a matter of fact, the hurt was a slight one, and the Czar is in perfect health so far as that is concerned; and if he is somewhat nervous, it is due solely to the catastrophe on the occasion of his coronation in Moscow, However, it was agreed between the Empress Dowager and her friends that the Czar's alleged illness should be made the means of inducing him to go abroad for a considerable length of time, and to entrust the Regency to herself. The young Emperor, it is said, heard of

what was contemplated only a few days before it was to be carried out, either Baron Fredericks or Count Mouravieff having unmasked the intrigue. Following the advice of Baron Fredericks, he assembled a part of his bodyguard in a hall and then sent for those who were concerned in it. When they were all assembled he told them that he knew everything. They were confound. ed, and their disquietude increased when the Czar opened a door and they saw his

faithful bodyguard in the adjoining room. As a good son he did not repreach his mother in the least; but severely blamed the Court Minister, Prince Varonzoff. Daschkoff, whom he ordered to resign at once, an order which was, of course, obeyed. Baron Fredericks was appointed to be his Copenhagen.

Hongkong Tides.

The Tide Table given below has been compiled by the Nautical Almanac Office in London from the results of the analysis of observations taken by means of an automatic tide recording machine in the Water Police Basin at Taim Sha Tsui during the years 1887-8-9. The zero of the table is Low Water Or-

dinary Spring Tides, which has been found to be 2 feet below mean sea level. To obtain the depth of water on the tide gauge at the Victoria Naval Yard add 5 ft. 7 in., and on the gauge at Lamont Dock.
